

Model No: B5386DU-J

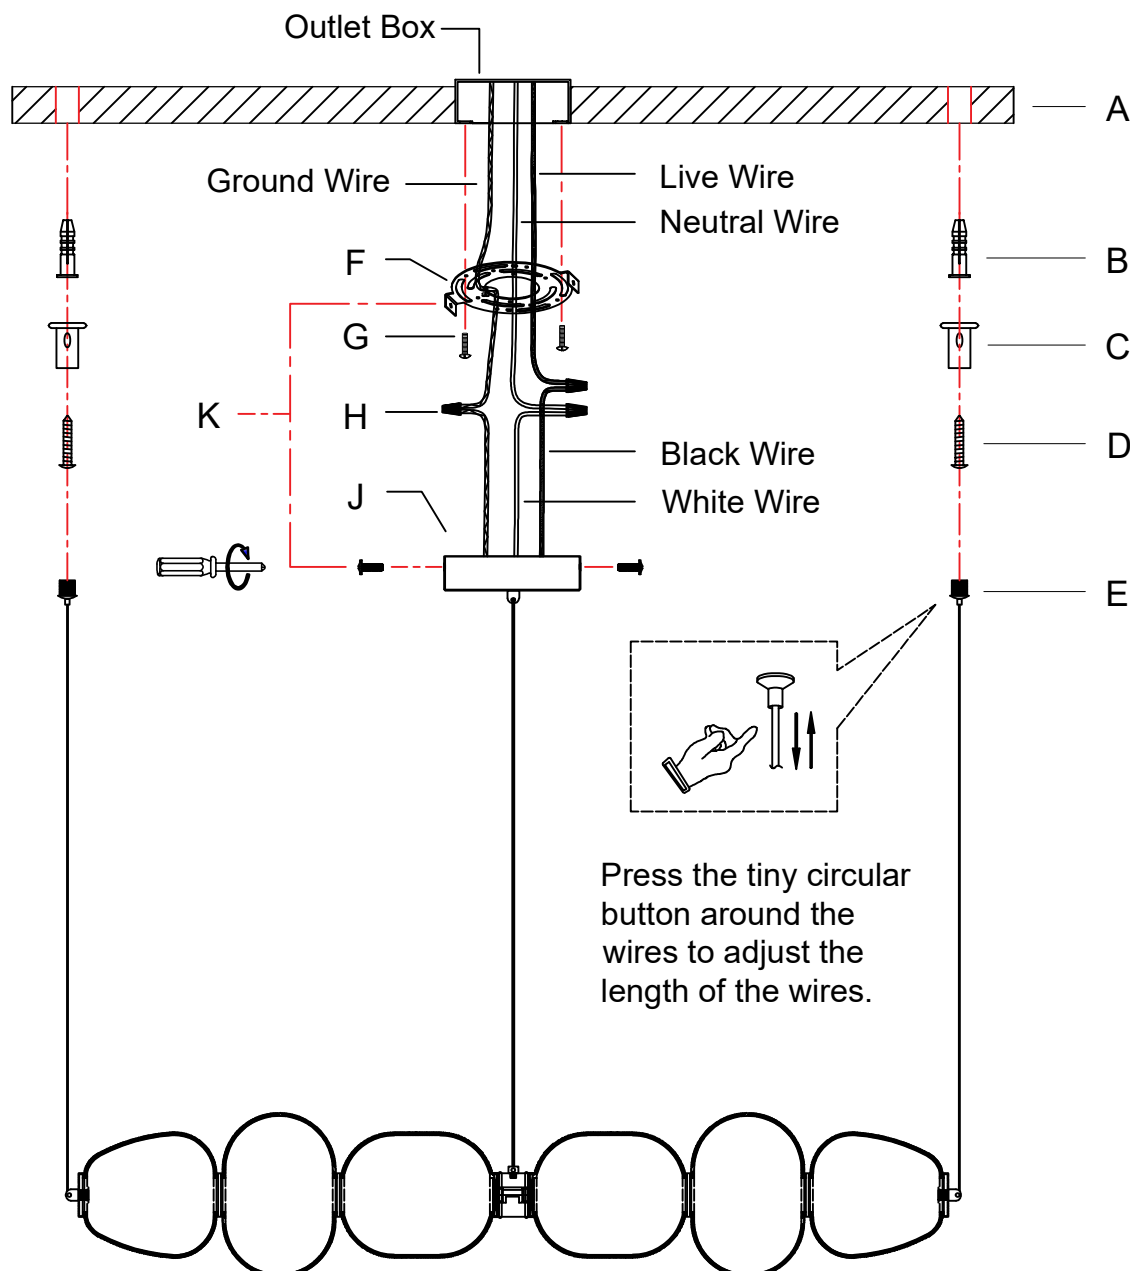

ASSEMBLY INSTRUCTIONS

1. Drill holes on the wall (A) according to size of drywall anchors and gently tap the plastic drywall anchors (B) into the wall with a hammer.
2. Attach the T-shaped iron part (C) to the wall using a screw (D) to secure. Screw the retractable iron nut (E) into the T-shaped iron part.
3. Install the mounting plate (F) on the outlet box with the screws (G).
4. Connect the fixture wire to the circuit wire with the wire nuts (H): black wire with live wire, white wire with neutral wire, ground wire with ground wire. Turn the wire nuts to twist the wires together. Wrap the wire nuts with insulated rubber tape.
5. Fix the canopy (J) to the mounting plate (F) with the screws (K).

Please consult a qualified Electrician if you are not familiar with electrical wiring.

Memory Function Setting (3000K/4000K/6000K):

After selecting the desired color temperature by turning on/off the light, the setting will be memorized if the light remains on or off for more than 10 secs. When the light is turned on next time, it will be the selected color temperature. (To change the color temperature, simply turn on/off the light again within 3 secs.)

Press the tiny circular button around the wires to adjust the length of the wires.
