

Model No: B7301CU

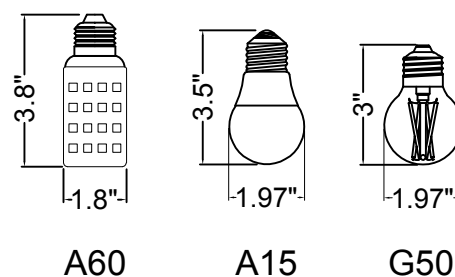

ASSEMBLY INSTRUCTIONS

1. Install the mounting plate (A) on the outlet box with the screws (B).
2. Loosen the hex nuts around the bolts (C) and screw in or unscrew the bolts from the junction box to get the right length for installation.
3. Connect the fixture wire to the circuit wire with the wire nuts (D): black wire with live wire, white wire with neutral wire, ground wire with ground wire. Turn the wire nuts to twist the wires together. Wrap the wire nuts with insulated rubber tape.
4. Fix the canopy (E) to the mounting plate (A) with the ball nuts (F).
5. Screw the bulb (G) into the lamp holder.
6. Align the top opening of the glass shade (H) with the triangular notch on the rounded cover (J) attached to the lamp holder and put the lamp holder into the glass shade at an angle.
7. Cover the top opening of the glass shade (H) with the smaller rounded cover (K). Make sure the glass shade is in the middle of the smaller rounded cover and secure the glass shade with the nut (L).

Please consult a qualified Electrician if you are not familiar with electrical wiring.

Recommended bulb shape

Max. Size of Bulb:
2.5 Inches Width * 3.8 Inches Height
