

Model No: T9011-2LU

ASSEMBLY INSTRUCTIONS

1. Unfold the connecting rods and screw the connecting rods (B) into the joint connector nut on the lamp body (A). Then connect the other rods together by screwing one into another one by one.
2. Tighten the joint connector nut on the base (C) to attach the connecting rods (B) to the base.
3. Put lampshade #1 (D) and lampshade #2 (E) around the threaded tube on the lamp body (A) and then tighten the nut (F) to attach the lampshades to the lamp body.
4. Screw the bulb (G) into the lamp holder.

Please consult a qualified Electrician if you are not familiar with electrical wiring.
