Remote Control Description

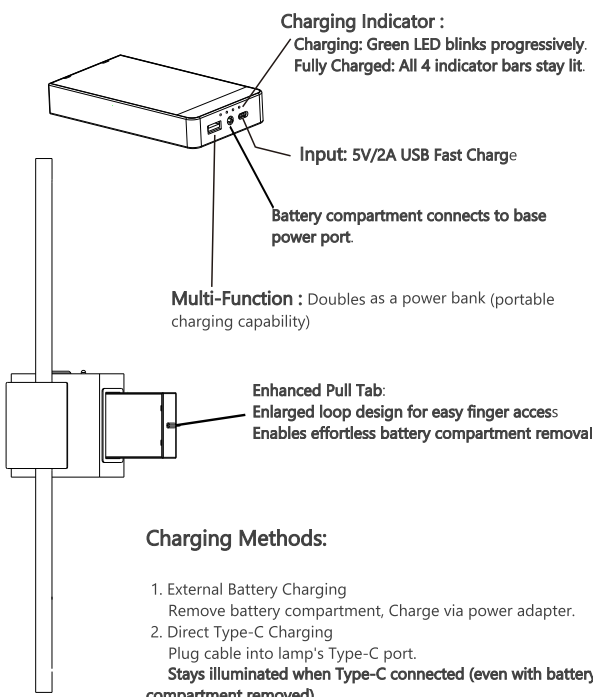

PRODUCT USAGE

- Operation Methods:**
- 1.Remote Control:**  
Press the "ON" button on the remote to turn on the light.  
**Notes :** Ensure direct line of sight with the wall light's IR receiver (max 8m range).  
**Memory Function:** The remote retains your last used lighting setting (color temperature/brightness).Removing the battery compartment resets the wall light to Warm White
- 2.Touch Control:**  
Single tap the wall light's touch button to switch on.  
Default setting activates Warm White light (3000K). memory function

- Important Notes:**
- 1). Ensure clear line of sight between remote and receiver for optimal performance.
  - 2). Interference may occur if multiple IR devices operate simultaneously in same area.
  - 3). If the remote becomes unresponsive when pointed at the infrared receiver (and only works at reduced distances), consider replacing the batteries.

- Charging Methods:**
1. External Battery Charging  
Remove battery compartment, Charge via power adapter.
  2. Direct Type-C Charging  
Plug cable into lamp's Type-C port.  
Stays illuminated when Type-C connected (even with battery compartment removed)

Please use a 5V/2A or lower specification charger. Otherwise, the device will not respond.
