

# ITEM NO. : B5335-13DU-J

## ASSEMBLY INSTRUCTIONS

1. Attach the lamp holder(s) (A) to the break (B) using the nut (C) to secure.
2. Wire connection of eight lamp holders (D) on the upper tier are divided into 8 groups. Wire connection of 4 black/white wires are divided into 2 groups and two black/white wires should be connected with a wire nut. Both the black and white wire groups should be connected to a directing line in the same color. Turn the wire nuts to twist the wires together. Wrap the wire nuts with insulated rubber tape.
3. Connect the main fixture wire (E) to the directing lines. The black wires are connected to the black wires while the white wires are connected to the white wires. Turn the wire nuts to twist the wires together. Wrap the wire nuts with insulated rubber tape.
4. Put the break cover (F) on top of the break and screw the connecting rod (G) into the joint connector nut inside the break.

*Please consult a qualified Electrician if you are not familiar with electrical wiring.*
