# ITEM NO:T7221CU-M

ASSEMBLY INSTRUCTIONS

1.Pass the wires through the connecting rod (B) and screw the connecting rod into the joint nut on the lampshade (A).

2.Attach the canopy (C) to the connecting rod (B) and secure the canopy with the nuts (D).

3.Screw the threaded tube (E) into the joint nut inside the lampshade and secure the tube with a nut. (Note: the part of threaded tube that is screwed into the lampshade can't be too long otherwise it will press against the wires.)

4.Attach the diffuser (F) to the threaded tube (E). Put the diffuser (F) into the lampshade at an angle and secure the diffuser with the nut (G).

5.Install the mounting plate (H) on the outlet box with the screws (J).

6.Loosen the hex nuts around the bolts (K) and screw in or unscrew the bolts from the junction box to get the right length for installation.

7.Connect the fixture wire to the circuit wire by wire nuts (L), black wire with live wire, white wire with neutral wire, ground wire with ground wire.

8.Fix the lamp body (C) to the mounting plate (H) by the ball nuts (M).

Please consult a qualified Electrician if you are not familiar with electrical wiring.
